Bachelors of Couldnt Wait To
Graduate
Graduated May 2014

Work Experience

Silicon Valley Inc. | Rainbow City, CA | Technical Consultant | May 2017 - Present

- Worked with clients to do business-y things.
- Taught clients how to use kind of intuitive but painful to use API.
- Helped clients generate millions of dollars in revenue by spending another millions of dollars.

Consulting Firm | Rainbow City, CA | Software Engineer Consultant | January 2015 - May 2017

- Developed software for clients.
- Implemented hundreds of features.
- Fixed millions of bugs.

Automobile Company | Rainbow City, CA | Software Developer | June 2014 - January 2015

- First full-time job after college.
- Only job that sent me to HR (so far).
- Used despicable piece of software to move data around.

End of Page 1

Rest of it is just a filler blank page

Payroll Company | Rainbow City, CA | Automation Engineer | January 2014 - May 2014

- Second internship that actually paid my bills.
- Spent entire time learning outdated but useful things.
- Developed unused things for the company.

Startup Company | Rainbow City, CA | Web Developer | January 2013 - December 2013

- First and only unpaid internship.
- Developed web application that looks like it was made by a 3rd grader.
- Tried all sorts of things.
